25th Anniversary of Church is Occasion for Rejoicing by Congregation of St. Paul's

Silver Anniversary Year Sees Church
Placed on Self-Supporting
Basis.

"Economic conditions have challenged our faith and stability, yet this challenge has been met by the willingness of the church to become self-supporting this year for the first time in its history," states the Rev. A. E. Larke in a circular letter issued to his congregation, calling attention to the 25th anniversary services to be held on Sunday and Monday next.

The people of the United church, under the energetic leadership of Mr. Larke, who assumed charge here last July, are to be congratulated on the forward step they have taken and well may they rejoice over their accomplishment at a time such as this.

On Sunday the Rev. F. W. Locke of Nanton will be the preacher. He is a pioneer of the church. On Monday the annual supper will be held, to be followed by a free concert. This is always an important annual event in church life in the town, and doubtless there will be many who will attend.

Fernie Miners Accept Pact

New Two Year Wage Agreement Is
Ratified by Large Majority
of Miners.

(Lethbridge Herald)
Fernie, B. C., March 21.—The British Columbia Miners' Association, being the employees of the Crows Nest Pass Coal Co. at Coal Creek and Fernie, voted last Friday in favor of the two-year wage agreement which they have been negotiating with this company.

There is said to be little if any change in this agreement from the one they have been working under.

The vote was as follows:
For new agreement 623
Against new agreement 97
Spoiled ballots 14
Total votes 734

DOES THE CAP FIT?

A traveller came to town. Looking around, he noticed in various places that clocks were stopped, dates on calendar pads had not been torn off for several days, posters of events that had taken place two or three weeks previously were still displayed, and other signs of inertia. "No wonder business is quiet!" he remarked; "half the town is dead!"

The importance of a properly made up invoice or billhead cannot be overestimated. See that your stationery properly represents your business and leave your orders with The Journal. Envelopes carry your message to its destination. They are important, and this office can suggest attractive printing copy.

Printing is the Handmaiden of Achievement!

Progressive men appreciate the valuable help of printed matter in business.

Dignify your business by having high-grade paper neatly printed with your name and other details of your business.

Trying to do business without necessary printed forms indicates that you are not taking advantage of progressive methods.

Use a typewriter and show the world that You Are Progressive.

THE JOURNAL Office will sell anything you require in Stationery, typewriters, Office Supplies, etc. Phone 209

ALBERTA EDUCATIONAL ASSOCIATION

The twenty-first annual convention of the Alberta Educational Association will be held in Edmonton during the Easter school vacation.

The main speaker this year will be Dr. Ludwig Mueller, a distinguished scholar and writer and an official representative of the German Republic and Minister of Education.

His subjects on Tuesday, April 7th, will be: (a) The New Education Movement in Germany; (b) International Relationships.

ST. ALBAN'S CHURCH NOTES

March 29, Palm Sunday, the services will be: 2 p.m. Sunday School; 3 p.m. Adult Bible class; 7 p.m. evensong and address.

During Holy week, the special services will be: Wednesday 10 a.m. Holy Communion; 4:15 p.m. Children's Lenten service; 8 p.m. evensong and address. Good Friday: 12 to 3 p.m., 3-hour meditation, "The Seven Last Words from the Cross."

I hope as many as possible will avail themselves of these opportunities of coming "apart and resting awhile" with God during that holiest of all weeks in the Christian year. It is not necessary to remain the full time at the Good Friday Meditation.—A. S. Partington, Vicar.

IN MEMORIAM

In Memory of our dear mother, Mrs. Annie Johnston, who passed away March 25, 1924, at Coleman, Alberta.

Seven years have passed and gone. Since you have passed away, When we said good night here Jesus said good morning over there. When He opened the gate and bid you enter in

To that beautiful city of gold, away from sorrow and pain, When the sun goes down over here, We will meet you over there.

Inserted by: Mrs. Maude Funk, daughter; Harold Johnston, son; John Johnston husband, 404 East Hartson Ave., Spokane, Washington.

In Loving Memory of our dear mother, Mrs. Annie Johnston, who died on March 25th, 1924.

When the shadow of night is falling And we are all alone, There comes a thought of you, dear mother

If you could just come home. Ever remembered by her daughter, son-in-law, and grand children, Mr. and Mrs. J. Planete and family.

Pattinson's hardware store has installed a health meter, whereby you may test your weight daily to find if you are keeping normal.

Advertised goods are usually the best in quality and price.

"MY IRISH ROSE" PROVIDED ENJOYABLE EVENING

The annual St. Patrick's entertainment of Holy Ghost church was featured by the production "My Irish Rose." The young people forming the cast were coached by Rev. Harrington of Blairmore, who for three years has managed the productions for the Roman Catholic churches in the Pass towns.

Miss Kathleen Tompkins was outstanding in her character first as Rose Cregean, and subsequently as Lady Fitzgerald. Julia Dutil was also splendid in her part as the servant who on experiencing the thrills of city life discarded her "bumpkin" sweetheart of the farm.

Local Train Service Discontinued Mar. 30

Passenger Service Will Be
Confined to One Train Each
Way Daily

Changes in the C.P.R. local service between Calgary, Macleod and Crows Nest will go into effect on March 30. C. W. McKinnon, local agent, states the last westbound will run to-morrow, and the last eastbound on Saturday.

Busses and freight trucks operating out of the cities to many points covered by railroads have cut heavily into business, and the ironical phase of the situation is that the railroads, as pioneer carriers, played a very important part in developing trade routes on which motor transport is making very serious inroads.

Motor transport does not require the enormous capital investment in roadbed and rolling stock on which a railroad must pay interest and maintenance charges, and already public interest is being aroused as to the share of maintenance costs which the motor transport companies should bear for the use of the highways.

Boxing Exhibition for Middleweight Championship

Kid Winters, after his bout in Hillcrest on March 16th in which he out-pointed Reggie Taylor, challenged anybody in Western Canada, at his weight. Ivor Bolt, blacksmith at the International mine, had a front seat and is taking on Winters.

Dick Hughes, brother and trainer of Kid Hughes, is a star performer. Bert Garrett, Coleman, is considered a worthy opponent.

Reggie Taylor, Natal, is matched with Jimmy Anderson, a Coleman Scot. Good bout is expected. All three of the above Coleman boys are sparring and working out with Russell.

Nick Totterelli and Kid Serotti have had a draw with each other before, and want a decision. This should be interesting.

There is good rivalry between Joe Uhrin, Blairmore, and Bill Ukreinets, Coleman.

Tommy McGovern, Michel, is not officially matched yet. He will be used as a fill-in.

Tony DeGeco and E. Salvador will open the show with a snappy encounter.

Main Bout

Kid Hughes, 23 year old Welsh boxer, defeated McMahon on March 16th in fourth round, accepted a challenge to box Bill Russell of Coleman, ten rounds to decide the middleweight championship of Crows Nest Pass. Russell is 22 and a few pounds heavier than Hughes.

"Scotland in Song and Story" is The Theme of Illustrated Lecture

Caledonian Society Will Entertain
Members with Lecture from
Extension Dept. of University

On Friday evening a very interesting lecture will be given in the Knights of Pythias hall to members and friends of the above society. This is the first of a series of interesting events arranged by the recently organized Caledonian Society, and their efforts along these lines are worthy of commendation.

It commences at 7.30, and it is important that you be on time.

OUR QUESTION BOX

The answer to last week's question was: The Sydney harbor bridge in Australia. There was not one correct answer.

Replies were received from Ruth F. Sudworth, Margaret Houghton and Thomas Poston, stating that Quebec bridge was the answer; Winnifred Phillips, Rudolph Kwasney and Irene Brynen gave as their answers the Brooklyn bridge, while John W. Nelson gave as his answer the Ambassador bridge over Detroit river.

In order that a prize be awarded, The Journal has placed Ruth F. Sudworth's name on the subscription list for one year. Her's was the first reply received at the office, and was neatly written. Her description was: "The longest single span bridge in the world is that which spans the St. Lawrence river near Quebec. It measures 3240 feet from end to end, and the central span is 640 feet."

THIS WEEK'S QUESTION

This week the question is: "What crocodiles are considered the worst man-eaters in the world, and which part of the world do they inhabit?" The Journal compliments the boys and girls who replied. The answers were all neatly written. Try again!

Local News

The Ladies' Aid of the Holy Ghost Church wish to thank the citizens of Coleman for the generous response to the appeal of Shamrock tag day. The proceeds will be used for the needy in Coleman regardless of creed or denomination. There is an investigating committee in charge and a report of same will be given later.

Captain Weir of the Salvation Army, Macleod, was here this week selling the Easter number of the War Cry. He was the guest of Mr. and Mrs. Robert Holmes whilst here, they always having taken an active interest in the work of the Army. He was accompanied by Mr. Ironfield, of Macleod, who visited his old friend, T. Holstead.

The Blairmore young people entertained the Coleman Young People's League at Blairmore last Monday night. An enjoyable program was presented including a violin solo from Roy Upton, solo by Violet Rae and two of the boys in the League gave an impersonation of the "Two Black Crows." Games and refreshments followed.

Personal and Local

Last night it was 8 below zero.

The Catholic Ladies' Aid will hold a whist drive this evening (Thursday) in the parish hall.

Joe Spievak attended the funeral of H. Lipsey at Michel last week. He was well-known in the Pass and highly respected.

R. Laslett is spending a few days in Calgary and announces that he will have a fine display of Easter millinery on view on his return.

Rev. N. W. Whitmore of Pincher Creek will address the Young People's League at a banquet to be held this evening in the Grand Union hotel.

General Manager Whiteside and H. V. Hummel are attending the annual meeting of directors and shareholders of International Coal & Coke Co. Ltd. at Victoria, B.C.

A reply to The Journal's question box came in a round-about way. It was to the effect that the longest single-span bridge in the world connected Tasmania with Australia.

A meeting of the Rod and Gun Club was held this week, and efforts will be made to have the fishing season open a month in advance of the usual time, states Secretary Beart.

A. Dewar is scanning the skies these days, calculating on the time it will be fit to start the homing pigeons on their flights. There are more prizes than ever this year for competition, he states.

The musical festival committee reports 184 entries, the largest on record. The festival opens on Easter Monday at Blairmore. Coleman Gleec Club will take part in the competitions.

The announcement of the whist drive to be held last Thursday night in the parish hall by the R. C. ladies was an error. These whist drives are held every two weeks. Thursday 26th March (this week) will be the next date. Special prizes. Tickets 35c. Everybody welcome.

Palace theatre announces a fine feature this week end in "Irene Bordoni in Paris." Another feature billed for early appearance is "The Spoilers" screened from the famous novel by Rex Beach. Graham McNamee as the Universal News Reporter is included in the weekly programs.

Spring-time requires a general cleaning up. Ashes should be removed to the proper dump grounds, and not be allowed to lie in places where they are a nuisance and an eyesore. Nature provided a very beautiful townscape, but it is badly spotted by allowing unsightly rubbish piles to mar the view.

The address of S. G. Bannan to the A.Y.P.A. at Blairmore last Friday evening was most interesting. It was entitled "The History of Law," and the speaker was complimented on the manner in which he had prepared such an interesting address on what might be considered a dry subject. He was accorded a hearty vote of thanks, and several questions were answered at the close of the address.

"It Pays to Advertise" Title of Play to Be Pre- sented Here in April

Talented Coleman Players Steadily
Rehearsing for Three-Act
Farical Fact.

Under the auspices of St. Alban's Vestry, Coleman Players will present what they claim will be the best production ever presented to the public of the Pass towns. The title, "It Pays to Advertise," indicates that the play has plenty of pep and appeal. It is a special copyrighted play which has been presented with great success on the legitimate stage and also on the screen. Permission for production has been granted by the copyright owner, Samuel French of New York, and the cast includes the following: Edith Hayson, Hilda Clifford, Alice McLintock, Kathleen Milley, Maurice W. Cooke, Arthur E. Graham, R. F. Barnes, Sidney Short, C. J. Devine, A. S. McLintock, Fred Guerdar.

The ticket sale will open in the near future and as it will be played for one night only the public would be well advised to reserve their seats as early as possible, as only a limited number will be placed on sale. The general admission is placed within the reach of all at 50c and juniors 25c with a matinee in the afternoon for children only.

The play will be presented in the Opera house and it is anticipated that there will be a capacity house to see this highly amusing and most successful play.

"The Miracle of Milk"

"Drink a quart a day, and keep the doctor away," advised William Ambros, of the Dependable Dairy. If anyone doubts the value of milk as a food, he advises them to read the McFadden publication, entitled "The Miracle of Milk." Some striking facts and figures are given to prove the efficacy of milk as a body-building food.

This Will Interest our Neighbors

The Superiors have probably the best line up that has represented the two western provinces since Coleman fell to Part Arthur a few years ago.—Albertan.

ENO'S FRUIT SALT

The Safest, Surest Way To Health

The daily dash of ENO in a glass of water every morning is the safest, surest way to inner cleanliness. And to be inwardly clean is to be healthy. ENO'S "Fruit Salt" is a delicious health beverage that tones and sweetens the entire system. For constipation, acid stomach, fatigue and biliousness it is without equal. But remember, only ENO can give ENO results.

A 1931 Seed Time Problem

Seeding time throughout Western Canada is at hand, and, as the farmer overhauls his ploughs, harrows, and seeders in preparation for the Spring work, he naturally is looking forward and planning just what he ought to do in the light, not only of his own individual circumstances, but of prevailing world conditions and prospects.

The prairie farmer is an optimist, as a rule. Indeed, to succeed, he can hardly be anything else. Unquestionably, however, there is less optimism prevalent as the season of 1931 opens than is usually the case throughout this western country, and many farmers are in somewhat of a quandary in reaching a decision just what is best for them to do this year.

Most of them have been growers of wheat. It has been their major article of production. Upon it they have depended for success. But for the past year and a half wheat has been a drug on the world's markets. The selling price has fallen well below the cost of production. There is a large surplus stock on hand in various countries. What, then, is the prospect for disposing of a new crop of wheat at profitable prices in 1931? Yet the vast majority of prairie farmers cannot turn from wheat growing to something else in one short season, even if it was advisable to do so.

Under these circumstances should the farmer proceed to seed the average number of acres he has been seeding in years past? If he does and all the great wheat growing countries, as well as Canada, harvest an average normal crop, will the price obtainable for the wheat yield him a profit, or will it again fail to cover the costs of production and leave him in a worse position than if he had grown no wheat?

Inasmuch as the farmer cannot rest from growing something—his livelihood depends on his production—and as the prevailing prices for coarse grains are less than production cost, the farmer is confronted with a real problem, and one he must decide for himself. Another crop failure, or partial failure, would be a disaster. Equally, a large crop throughout the world would mean loss to the producer. It is a gamble either way. If the Western Canadian wheat grower could be assured of a good crop, while below average crops were the rule in other great wheat producing countries, his course would be clear. But as to this no man can foretell.

Possibly many farmers will consider it wise to seed merely seed sufficient acreage to provide him with a livelihood if all goes well, and devote his time to the eradication of weeds and the more thorough cultivation of his land in preparation for future operations, coupled with the planting and expert care of a garden sufficient to supply the needs of his own family during the summer and next winter.

A goodly number of farmers will have to look to the Government to supply them with seed; many others will not be able this year to buy registered seed, but whatever acreage is sown, be it large or small, should be seeded with good, clean seed, the best it is possible to obtain under the circumstances.

Generally speaking, too, farmers will have to keep down all overhead expenses. Last year's plough, harrow and seed drill will have to do service another year. Therefore, careful overhauling of all present equipment will undoubtedly be one of the outstanding activities on farms at this time. The farmer and his family may have to work even harder than usual and possibly get along with one hired man where formerly two were employed, even though this may operate to continue or temporarily intensify the existing unemployment.

In a word, everybody must face and adapt themselves to the hard, unpleasant facts of the existing situation. Present problems cannot be solved and difficulties removed solely by governmental action, the extension of credits, or any other external agency or action. These may help, but at best, they are only temporary palliatives. Each individual must, in the final analysis, face his own problem, decide upon his own line of operations this Spring, work out the basic needs essential to his own salvation.

This article is not a preachment at farmers; it is not an attempt to advise farmers, for if there is one individual for whom the writer has a contempt it is the arm-chair critic, the arm-chair farmer. The existing situation, as the writer sees it, is that each and every man must exercise his own best judgement in the light of his own particular circumstances, and proceed with all the ability and energy of which he is capable to work out the solution of his own problems, and thereby make his contribution towards finding a solution for the problems of all others and the country as a whole.

White Hunters Protest

The Indians' right to trap beaver is contested by the white hunters of Fort Smith, in the northern part of Alberta. At a protest meeting, held recently, a number of the white trappers declared it was unfair to deprive the white man the privilege of trapping the beaver, while Indians and half-breeds were allowed 15 beaver each season.

The Hawaiian Islands are the peaks of mountains rising from a plateau thousands of feet below the ocean level.

Gossip is the mother-in-law of falsehood.

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The M. L. Milburn Co., Ltd., Toronto, Ont.

Growth Of Canadian Newspapers

The first issue of the Halifax Gazette, Canada's first newspaper, was printed on a half sheet of foolscap. Some of the Saturday and weekly editions of present-day Canadian newspapers require 60 to 100 pages, 8 columns wide and 28 inches deep, in which to give the desired information to the people.

Would Say Plenty

Lemuel—What would your wife say if you bought a new car? Samuel—Look out for that traffic light! Be careful now! Don't hit that truck! Why don't you watch where you're going! Will you never learn? (And a lot more like that.)

Suffered From Heart Trouble

Became Weak and Run Down Mrs. Wm. Dlott, Glenside, Ont., writes from a period of heart trouble, and became very weak and run down. I tried various remedies, but they did me no good. One day I met a friend and he told me of his trouble. She said she had heart trouble for two years too, but after using Milburn's Heart Nerve Pills for a short time she had been relieved of her trouble, so I got two boxes and after taking them I was again feeling fine, and always recommend H. N. Pills to anyone complaining of heart trouble.

The Value Of Carbon

No Form Of Life Can Exist Without This Atom

The most wonderful substance in the world is carbon. Soot, lamp black, and pencil leads are all forms of carbon—and so is the diamond. The carbon atom possesses one remarkable quality. It enables other atoms to combine into huge groups or families from which all kinds of substances are made. By themselves, the atoms oxygen, hydrogen, and nitrogen can produce nothing very startling, but add carbon and their combinations become amazing, giving rise to such substances as petrol, oil, medicines, bread, and meat. If it were not for carbon, life could never have existed upon this or any other world. All kinds of living things—fish, flesh, fruit, and fowl—owe their existence to the carbon atom. No one knows why this should be so, for the carbon atom differs from others only in having one electron more or less than they. But it is quite certain that it is the foundation-stone of all life.

Just Right For Upset Stomach

For after-eating distress, gas, sourness and bloating, the quick and positive neutralizing action of Bismarck Magnesia has proved to be just right! Belief, certain and gratifying, almost instantly follows the very first dose—and a few cents worth obtainable from any good druggist, lasts for a long time.

Canada's Trade Balances

Six European Countries Bought More Than They Sold In 1930

With only six European countries did Canada enjoy a favorable trade balance, in 1930, according to a return issued by the Dominion Bureau of Statistics. These were Denmark, Norway, Greece, Netherlands, Italy and Belgium.

Japan and China were the Asiatic nations which purchased more from this country than they sold to Canada.

Argentina, Brazil and Cuba were countries of South America, and the Caribbean, which all gave Canada a favorable balance of trade.

The greatest spread was in trade with Greece. The Hellenic Republic bought goods from the original value of \$8,651,000, and sold to Canada valued at \$234,000.

Nothing As Good For Asthma. Asthma remedies come as you go, but every year the sales of the Original Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. No further evidence could be desired of its remarkable merit. It relieves. It is always of the same unvarying quality which the sufferer from asthma learns to know. Do not suffer another attack, but get this splendid remedy today.

Results Were Startling

Investigation By Phone Company Shows Decline In Conversational English

An investigation conducted in New York by the American Telephone and Telegraph Company's engineers, who listened-in to telephone circuits over which business calls predominated, gave startling results regarding the decline in conversational English. Of 79,300 words recorded, 20 simple words—principally the personal pronouns, prepositions, conjunctions and a few verbs—made up nearly half. More astonishing still is the fact that 155 words, including the 30 already mentioned, made up more than 20 per cent. Grammarians will be horrified to learn that "and" was heard only six times; while "yeah," "uh-huh" and "er" were plentiful; and the grunts and monosyllabic replies recorded ran into the thousands.

Quick action saves trouble, worry. Keep Douglas' Egyptian Liniment always handy. Stops bleeding instantly. Cauterizes wounds. Hair comes back. No scar remains.

Making Business Hum

A London, England, department store gave out \$2,500,000 worth of orders to wholesale houses in one day. It then published big ads in the newspapers inviting the public to come and buy the lot up in one week. That's the way to make trade hum.

Canada's Highways

The total highway mileage of all classes of road open for traffic in the Dominion of Canada at the end of 1929 (latest official figures), amounted to 399,060, which was an increase of 8,083 miles during the year.

A fountain pen for writing in dark places is equipped with a small flashlight.

World Waiting For Disarmament

General Agreement Expected To Be Reached At Conference Next Year

The world can disarm its forces of land and air by following the methods embodied in the Italo-French naval accord—actual reduction of armaments as well as limitation of them. Dino Grandi, minister of foreign affairs, said the Italian Chamber of Deputies, in reporting to it the details of the naval agreement.

Grandi called the disarmament of aerial and military units may be agreed upon at the general disarmament conference next year has been made more probable, the foreign minister said, through the influence of the present agreement.

Grandi called the arms conference which will meet in February, 1932, under League of Nations auspices, the most important since the war, and said tremendous preparations for it were under way. Political relations are being improved in anticipation of the coming parity, he said, governments are exchanging viewpoints and public opinion is being given voice in the nations which will have a part.

Grandi spoke before a distinguished gathering which included Premier Mussolini. He said the Italian principles in the problem of disarmament were two: Reduction of armaments to the lowest possible limit, but parity with the most heavily armed power of continental Europe.

No naval agreement which results in a five-power treaty is a victory for anyone, he said, but it is "a victory of commonsense."

Storm Makes Water Salt

Nova Scotia Lake Is Now Part Of Atlantic Ocean

Once upon a time, in fact as late as a few weeks ago, there was a deep lake of fresh water on Sable Island, off the shores of Halifax county, Nova Scotia. The lake is still there, but a storm came and now the water is quite salt. Adding new territory to their Atlantic domain, hungry seas tore through a wide wall of earth and trees ten feet high, and the mile-long lake that provided generations of fishermen with ice and a natural rink now rises and falls with the tides. At high tide fairly large vessels can enter through the wave-beaten passageway and anchor in the lake.

One island resident, looking back 85 years, says that never before withing that period has salt water entered the lake.

Escaped From Russian Prison

English Engineer Under Care Of British Embassy At Warsaw

M. Thompson, an English engineer, has been taken care of by the British Embassy at Warsaw, Poland, following his escape from Russia. The man was found hanging under a car when the Moscow-Warsaw express reached Warsaw. He said that he had been working in a Russian factory and had been arrested by the O.G.P.U., the Russian secret police, and taken to a prison in Tomsk. He escaped and reached Warsaw by walking and by beating his way under trains.

German Invents New Mirror

A non-breakable mirror of wood has been invented by a German scientist. The wood is soaked in a caustic alkali after which it is put through a process of immersion into metals and chemicals. The wood then is dried and rubbed with a smooth piece of lead, tin or zinc, until it is brilliantly polished.

Persian Balm—the one toilet requisite for the dainty woman. Delightful to use. Leaves no stickiness. Swiftly absorbed by the tissues. Delicately fragrant. Imparts a velvety loveliness to the complexion. Tones up the skin. Soothes and banishes all unpleasant roughness or chafing caused by wind and other weather conditions. Make hands soft and white. Creates an elusive, essentially feminine charm. Persian Balm is indispensable to women of refinement.

The average American eats about 18 pounds of tomatoes of the bottled and canned varieties in the course of a year.

Bequest Was Not Wanted

U.S. Universities Refuse Fund For Campaign Against Women Workers

The hope of the late Albert E. Pillsbury, that Harvard, Yale, Princeton and Columbia would carry on his campaign to keep women in the home and out of politics and business seems doomed to disappointment. All but Yale have now refused to accept the bequests in his will to establish lectureships on this burning question, and there is little doubt that Yale will follow their example. Even though the university authorities were left free to adopt what they judged the most effective method "toward creating or developing sound public opinion on this subject," the known views of the donor have apparently precluded any idea of using his money in a study of feminism.

If Mr. Pillsbury had died a quarter of a century earlier these universities might have accepted his bequests with alacrity. But woman is so far out of the home and in business and politics that college professors could lecture interminably without in any way affecting the situation. Many of them might be glad to do so, and if the decision had been left to them, the lectureships might have been established, but presumably the college authorities had also to consider whether there would be any students to listen.

What will now be done with the money we do not know. On the principle of making the most of a bad job it might possibly be diverted to lectureships in the women's colleges on how to vote intelligently.

Saskatchewan Poultry Pool

Increase Shown In Volume Of Business Over Previous Year

An increase of nine per cent, in the volume of product handled by the Saskatchewan Poultry Pool, Limited, for the year ended January 31, 1931, as compared with the previous year, was noted in the report of the president, Mrs. Bertha Holmes, submitted at the recent annual meeting of the pool. A considerable increase in membership was evident, a total of 2,418 new contracts having been received during the twelve months.

A British scientist says that as many as 50,000 living species of molluscs are known.

HAMILTON LIMITED ONTARIO

Western Representatives: HUNTER-MARTIN & CO., REGINA, SASK.

WESTERNERS ARE HEARD IN DEBATE IN OTTAWA HOUSE

Ottawa, Ont.—From Western members, the House of Commons heard something of conditions in the Prairie Provinces. Western members held the floor for a large part of the sitting. Incidentally, the speaker, to a great extent, dropped out of the debate. The great majority of participants came from the ranks of the Liberals.

At the outset, H. E. Spencer, U.F.A. member for Battle River, expressed the greatest disappointment with reference to agriculture in the speech from the Throne. He painted a gloomy picture of conditions in the West. Bankruptcy, suffering, privation, hardship endured and to be endured, "and the infinitesimally small amount of help that has been given," prompted him to speak to the agriculture paragraph in the Throne Speech as a "hollow mockery," he asserted.

"If conditions were any worse than they are, then God help Western Canada," he continued. "From the speech from the Throne, it would appear that it is another case of Nero fiddling while Rome burns."

The debate shifted back to Eastern Canada when Hon. P. J. Veniot, former postmaster-general followed Mr. Spencer. Mr. Veniot devoted a considerable portion of his speech to conditions in New Brunswick, and more particularly to the closing of a cotton factory in the city of Saint John. The tariff had proven anything but beneficial to that province, he asserted.

From another western member, J. L. Brown, Conservative, Lacombe, came a couple of suggestions to E. W. Beatty, president of the C.P.R., which Mr. Brown felt might result in improving conditions for the prairie farmer. Mr. Beatty might reduce freight rates, suggested Mr. Brown. He expressed the president of the C.P.R. might direct his efforts toward developing markets for farm products.

Investigation of the Canadian flour milling industry was urged upon the government by Thomas Reid, Liberal member for Westminster. He expressed the view that the recent report on the bread baking industry had not gone far enough.

Criticism of the government's tariff policy came from E. J. Young, Liberal member for Weyburn. "We know from the government's own figures that last fall there were 200,000 unemployed," said Mr. Young, "and today there are 300,000." In what way, he asked, had the tariff policy helped Canada, in comparison with what it had cost.

Reference to session talk in Western Canada featured the speech of John Vallance, Liberal member for South Battleford. Referring to remarks made earlier in the debate by F. W. Turnbull, Conservative member for Regina, Mr. Vallance asserted that session talk did not originate merely among five or six men gathered at Wilkie. He spoke of a document called the Farmers' Charter of Liberty, which, he said, contained demands similar to those made to the prime minister at Regina. All the farmers had received as an answer to these demands, he said, was promises.

Amend Criminal Code

First Reading Is Given To Bill In House Of Commons

Ottawa, Ont.—The House of Commons gave first reading to a bill amending the criminal code. The measure which was introduced by Armand Lavergne (Cons., Montmagny), provides:

1. In jury trials, defence counsel would address the jury after crown counsel had been heard in place of before crown counsel.
2. That judges should address the jury on questions of law only and not on fact.
3. That in Quebec provinces, presiding judge at such trials shall be a judge of the court of sessions of the peace.

Menace To Aluminum Trade

Tokyo, Japan.—A menace to Canada's aluminum trade with Japan looms up in a scheme that has now reached the formative stage, to supply all of this country's requirements of this metal by a plant to be established in Chokai (Korea).

W. N. U. 1882

In Interests Of Science

Canadian Doctor Faces Death As Result Of Experiment
London, Ont.—Dr. Wray Lloyd, graduate of University of Western Ontario, and one of the most promising of the young scientists working under the wing of the Rockefeller Institute, is facing death for the second time as a result of experiments.

Dr. Lloyd contracted yellow fever from monkeys with which he was working in his New York laboratory. His condition is not regarded as critical, but doctors point out that the tropical disease is always dangerous. In 1928, while studying the heart at the University of Western Ontario Medical school, Dr. Lloyd created quite a sensation when he announced that by using calcium chloride as a stimulant he had caused hearts taken from dead rabbits to resume beating.

Desiring to find out the effect of the drug on the human heart, Dr. Lloyd had his assistant inject a small quantity into his arm. The young doctor became suddenly unconscious and death was close before he revived.

No Cattle For Export

If Canadians Consume Same Amount Of Meat As Last Year

Winnipeg, Man.—Canada will have no exportable surplus of cattle this year if Canadians consume the same amount of meat as last year, declared Roderick MacLeay, rancher of High River, Alberta. Mr. MacLeay arrived from Ottawa, where he conferred with Hon. Robert Weir, Minister of Agriculture.

In Ottawa, Mr. MacLeay, with George Ross, of the Alberta, represented the recently-formed council of Western Beef Producers at a conference with the Minister of Agriculture regarding cattle export situation.

Mr. MacLeay emphasized that the Canadian cattle industry was on a "decidedly home consumption basis." He deprecates reports of a "glut" on the export market for Canadian cattle. He pointed out that on January 1, 1931, there were 11,546,000 pounds of dressed beef in cold storage in the Dominion, as compared with 23,000,000 on the same date last year. The five-year average, he added, was 22,570,207 pounds.

No Expansion Of Air Service Expected

Appropriation Compared With Former Years Likely To Hold Their Own

Ottawa, Ont.—No expansion in the air services of Canada is contemplated for the present year and it will likely be found, when the estimates are tabled, that appropriations for this purpose will do little more than hold their own in comparison with former years, it was stated here. Steady increase in the air vote has been an annual feature for several years past. Rigid economy is now demanded of those who direct Canada's air operations, however, and no appropriation will be set aside for expansion of existing services.

At the same time it is not contemplated that any reduction of the existing duties performed by the Royal Canadian Air Force will ensue, or that the present air mail services will be curtailed.

To Broadcast Arrival Of Governor-General

C.N.R. Chain Will Carry His First Speech As Far As Vancouver

Winnipeg, Man.—The Canadian National Railways radio system has been officially authorized to broadcast, over a coast-to-coast network, the arrival of the Earl of Beaulieu, governor-general designate, and his welcome to Canada by the prime minister. The new governor-general and his family will reach Halifax, Saturday, April 4, at 7 a.m. M.S.T. The addresses of welcome and Lord Beaulieu's first speech in the Dominion will be carried on the chain that will stretch as far west as Vancouver, according to E. A. Weir, director of radio for the Canadian National system.

Wreck Of Norwegian Vessel

Copenhagen.—Three passengers, one of them a five-year-old girl, and four members of the crew, perished when the Norwegian steamer "Hera" was wrecked on the rocks off Hammerfest, Norway, in a violent storm. Three of the crew members were women stewardesses. Fifty-five passengers and crew took to the boats and were towed to Hanoyund.

Former Manitoba Member Dead

Fred J. Dixon Resigned From Legislature In 1923

Winnipeg, Man.—Fred J. Dixon, 50, former member of the Manitoba legislature and for many years prominent in labor affairs throughout the Dominion, died March 18, at his home here.

Mr. Dixon, who had been in ill-health for many years, resigned from the legislature in 1923. He was first elected in 1914 as a Liberal, but later became a representative of Labor, sitting as a member for Winnipeg.

U. S. ADHERES TO ITS POLICY OF ALOOFNESS

London, England.—United States policy of aloofness from purely European armament problems has been adhered to in a decision made public at the conclusion of two days of conversations between Rt. Hon. Arthur Henderson, British foreign minister; Rt. Hon. A. V. Alexander, first Lord of Admiralty; U. S. Senator Dwight W. Morrow, and Ambassador Charles G. Dawes.

It was declared that the United States would not participate in any way in the drafting of the new Anglo-French-Italian naval agreement at the foreign office. While the United States will not participate in framing of the pact, official U.S. opinion echoed here, was that the tripartite agreement is an important and successful move toward settlement of European armament problems.

The only concern of the United States, it was said, is in regard to the world naval situation and the relation of the new accord to such existing naval agreements as the Washington Treaty and the Pact of London.

It was learned on high authority that U.S. experts on disarmament view the tripartite agreement as supplementing the London treaty of 1930 without conflicting with that pact or calling for any changes in it. It is now believed the Japanese government will also decide not to be represented.

Washington, D.C.—Secretary of State Stimson received assurances from Ambassador Charles G. Dawes, in London, England, that satisfactory progress was being made in Europe toward completing the Franco-Italian naval accord. The secretary said it appeared that U.S. participation on a committee to draft the Franco-Italian settlement would be necessary.

It was considered possible that the final draft might necessitate only the signatures of France and Italy. The question of British signatures is still one for determination.

Athena.—Ruins which he believes to be those of the first Temple of Eros, God of Love, have been found by Prof. Breguard of the American Archaeological School, on the northern slope of a hill mentioned in the records of the famous Greek geographer, Apollonius.

Cities Linked by Air

Inauguration of air service between Saint John and Halifax, February 28, when a Fairchild plane, of the Canadian Airways, left the former city for the Nova Scotia capital, marked the further extension of air travel in the Maritimes. In the cut Walter Bate, Saint John superintendent, Canadian Airways, is handing the pilot of the plane, Captain W. H. Irvine, a package of silk goods consigned by Canadian Pacific Express to a Halifax retail store. The trip was made in an hour and a half, a distance as the crow or an airplane flies, of about 125 miles.

MAY RECEIVE APPOINTMENT

Hon. Capt. A. Lancelotti, who, according to reports in one quarter, may be the secretary of Lord Beaulieu, Canada's new Governor-General.—Photo by Pearl Freeman, Lond.

Will Use Canadian Coal When Possible

Chiefs Of Both Railways Give Promise To Nova Scotia

Ottawa, Ont.—The two railway presidents, E. W. Beatty, of the C.P.R., and Sir Henry Thornton, of the Canadian National, expressed the desire of their systems to use Canadian coal wherever possible during a conference here with Nova Scotia representatives and Hon. Wesley Gordon, Minister of Mines and Immigration.

The minister announced that the facts as submitted by the fuel representatives would be closely studied by the fuel board and himself and as far as feasible their request for the use of Nova Scotia coal farther west than the railways are now consuming it would be followed.

Would Entertain Royalty

King Of Siam To Pass Through Western Canada

North Portal.—It is expected that the border towns of North Portal and Port of the Prince will be honored with a call from the King of Siam on April 19. His Majesty and party will be passing through en route from Vancouver to Washington, D.C., on that date.

A Minot dentist, N. B. Livingstone, has sent the distinguished visitor an invitation to be his guest at a Minnesota Lake resort. Mr. Livingstone having met the then heir to the throne at that resort in 1922. The question as to where Uncle Sam will give the customary royal salute is not decided.

Find Ruined Temple

Athena.—Ruins which he believes to be those of the first Temple of Eros, God of Love, have been found by Prof. Breguard of the American Archaeological School, on the northern slope of a hill mentioned in the records of the famous Greek geographer, Apollonius.

To Employ Local Men

Manitoba Workers To Be Used On Construction Work At Churchill

Winnipeg, Man.—Labor's request that only Manitoba workers be employed in construction operations at Fort Churchill, Manitoba's northern seaport, will be acceded to as far as possible by the Dominion Government.

The Winnipeg Labor Council recently requested the government to employ only Manitoba labor at Fort Churchill and apply the Manitoba fair wage schedule.

Hon. R. J. Manion, Minister of Railways, informed the council that Manitoba "certainly will get a large proportion of the work." He added, however, that it was not possible "to give it all to one province as some men have to be hired from elsewhere, because of special qualifications."

SENATE HEARS ABOUT RELIEF WORK PROGRAM

Ottawa, Ont.—"I believe Canada should profit by the errors made by other countries," Hon. Gideon Robertson, Minister of Labor, told the senate in a reference to Great Britain's unemployed insurance scheme.

Along with many other people, both in Canada and Great Britain, Senator Robertson had been pleased when the scheme first was put in operation, he said. It soon was evident, however, that it was becoming a burden on the country as a whole and had not removed the basic causes of widespread unemployment. Canada, he suggested, might profit by the experiment.

As head of the department that administered the Dominion's share in the joint unemployment relief scheme with the provinces and the municipalities, Senator Robertson said he had received complete co-operation from all sides.

The scheme had resulted in \$69,000,000 being subscribed by the Dominion, the provinces, municipalities and the two large railway companies, to provide work and relief.

"The situation has been substantially improved," the minister of labor declared. "Not only had the government provided \$20,000,000 toward creating employment opportunities, but it had raised the tariff to stimulate Canadian industry and had curtailed immigration to the country."

"I am convinced," Senator Robertson proceeded, "that if parliament had not met in September and had not taken those steps to relieve distress, there would have arisen in Canada a condition very difficult to control. It is the desire of this government to give attention to the permanent solution. No one expected unemployment to be ended in a day or a week, but this government is doing all within its power to relieve conditions."

Hon. Robert Forke suggested the incorporation of a scheme whereby farmers' debts in Western Canada would be amortized over a 10-year period. In his 49 years' residence in the west, he had never seen conditions so acute and he believed something would have to be done to relieve the financial burdens of the farmers if they were to continue producing. For the first time, Mr. Forke had seen indications in the west of a lack of confidence in the future.

Senator Forke believed too much money had been loaned by the banks at too high a rate of interest and that mortgage companies were threatened with a loss of part of their equity in lands. A 10-year amortization scheme might be the means of solving this angle of the west's predicament.

What was the only possible crop in some portions of the west, the former minister of immigration proceeded. He asked if times were hard in 1930, with wheat at an average price of 92 cents a bushel, what would they be in 1931 with 60-cent wheat? Senator Forke believed in the small-unit farm with diversified production, but he did not think this would materialize to any extent for some years.

Secession sentiment was not increasing in popularity in the west, Senator Forke declared. Expressions made in the past few months would not be taken seriously by other parts of the country, he said, but at the same time they could not be dismissed without consideration because they emanated from distress and discontent.

REPORT DEALS WITH THE 1931 CROP PROSPECTS

Ottawa, Ont.—Prospects for this year's crop are dealt with in a report issued by the Dominion Bureau of Statistics.

"The weather," it states, "of the past four weeks marks the first period of the winter which has been somewhat encouraging to the prospects for the 1931 crops. Ontario winter wheat crop has been greatly benefited by heavy snow. In the prairie provinces also, there have been scattered snowfalls of some benefit."

"In various parts of the prairie, during the winter," the report states, "there have been some reports of soil-drifting from areas bare of snow and with dry top soils. At the present time, with the exception of localized areas, normal conditions regarding soil moisture prevail throughout the west, since the heavy rain and snow falling between harvest and freeze-up, together with the snowfall of the first two weeks of March offset the large deficiencies in winter precipitation. It must be remembered, however, that sub-soil reserves are low in those important wheat-producing regions which have suffered from drought in the past two years."

War Responsible For Depression

Sir George Foster Deals With Present Economic Conditions

Ottawa, Ont.—Two of Canada's oldest parliamentarians in point of service, Sir George Foster, and Rt. Hon. George F. Graham, dealt with matters of national moment when speaking in the senate. The former, who will be 84 in September, dealt deeply into the causes of the present depression, setting forth the opinion that world-wide conditions were attributable largely to the last war.

As a former chairman of the tariff advisory board, Senator Graham said he was pleased to know the government intended establishing another board. Business interests demanded a forum in which their tariff demands might be heard. It might be wise to have a tariff board named by statute, with its powers defined and limited by statute, but he warned the government to exercise great care in making those powers. The people of Canada wanted the government and not a tariff board to fix duties.

Russia Taking Skilled Mechanics From Canada

Toronto Workers Answer Soviets Plea For Help

Toronto, Ont.—"Soviet Russia's world-wide plea for skilled mechanics and expert craftsmen has been answered by 100 Toronto bricklayers, carpenters, technicians and contractors, who have been guaranteed employment in the Soviet Union, and will leave Canada early in May. Arrangements for sailing have been made," the Toronto Star says.

The party will be composed of Russians, Canadians, Frenchmen, Finlanders and other nationalities. Wives and children will travel with the heads of households and many will carry with them their personal belongings, the paper says.

It is understood a year's contract of work has been guaranteed. The men who are going to Russia are not among the army of unemployed. The Star learned. The majority of them are working.

Fishing Boat Case

Ottawa, Ont.—Seizure of the coast of British Columbia of four foreign fishing vessels by the Canadian fisheries patrol, is the subject of a case on which argument was concluded in appeal before the Supreme Court of Canada. Judgment was reserved. The vessels, "Queen City," "Tillie" and "Sunrise," registered in the state of Washington, were seized on June 18, 1930, while the vessel, "May," registered in Alaska, was seized a few days earlier.

Ready For Delivery

Ottawa, Ont.—Delivery of the first of Canadian new destroyers, H.M.C.S. "Saguenay," will be made to this country on or about April 1. A number of tests have still to be made but it is expected that a Canadian crew will be put on board the warship around that date and will formally pass into the hands of the naval service of this court.

COMBINATION

NOTES AND COMMENTS

Brighten your smile! Smarten up for Easter.

You do not realize how shabby an old hat is till you buy a new one. Some people do not realize how necessary to success is attention to details that are easily overlooked.

We dreamed of an efficiency expert being slowly crushed by the suit-boring system he had planned. The corner in heaven or hell to which this type will be allotted will be a dry and cheerless spot. In the words of the Litany—"Good Lord deliver us."

"A quart a day keeps the doctor away," says the dairy proprietor, also the brewer of malt liquor. In the schools the best thing to keep the doctor away is the dental clinic, for prevention is the medium of safeguarding health which is impaired by neglecting the teeth. Why permit children to suffer? Ratepayers will undoubtedly support those members of the school board who advocate the continuance of the clinic. The decision is awaited with interest by ratepayers, as an overwhelming majority favor its continuance, even to the extent of taking a public vote.

A man can become miserly in his actions and his attitude to his fellow men by following a purely mechanical method of living. Were it not for sentiment, for doing the kindly act when opportunity offered, for helping a "lame duck" over the stile, life would indeed be hard and barren, and—Lord pity the poor! However, it is a consoling thought to know there are more kind and well-meaning people than of the opposite type, otherwise the world would not be worth living in.

When one looks around, and notices the various organizations that exist for fellowship and community welfare, he may be pardoned for at times thinking there are too many and that the fields of endeavor overlap; yet it is a fact that were it not for this happy condition, life would have very little of interest except work and squeezing nickels till they were flattened and so thin that you could see through them. May the good Lord save us from the domination of those whose only God is money and what they can extract from the labor of the poor.

The law of compensation is always at work. "The mills of the Gods grind slowly, but they grind exceedingly small." Every man early or late in life receives just about what is his due for good or for evil. You cannot escape the inevitable—rich or poor. A man's success in life is judged by service to his fellows. Abe Lincoln's memory is treasured among the common people, white or colored, because he liked them and worked for them. His name lives on, whilst others with far greater material wealth, have long since been completely forgotten.

Life in this group of towns in the Pass is an interesting study. Community development owes its progress in large measure to those who toil, who have not been starting in putting back in constructive effort and money a goodly share of that which they earned. God's immutable laws cannot be sidetracked without paying the penalty.

Cambridge won the boat race. This may not signify anything of importance to native-born Canadians. To the average Englishman it is one of the major sporting events of the year. The crews are the pick of Oxford and Cambridge universities and it is counted a high honor to have rowed in the great classic race on the Thames.

It recalls the incident of an enterprising newspaper which had two editions printed prior to the race—one in light blue ink and the other in dark blue—so that the editor of the winning crew would be issued as soon as the flash news was inserted. The result was a dead heat, and the editions were thereby "robbed" of the effect contemplated by the enterprising publisher.

Some are endowed with, or develop, creative effort. They capitalize time by seeing that they produce something useful to the community or the world. It is to the world's workers—and many employ their thoughts as workers—who really contribute to the world's progress.

We see it in our own minds every day. The man who is constantly on the look-out for improving his business, the clergyman who is trying to promote the influence of his church by every-day contacts, the worker in the mine or office who is striving for self-improvement, are possessed of creative instinct which causes activity.

The pessimist says, "What's the use of trying this or that; you'll not get any results!" The optimist goes ahead and accomplishes results. And results determine the value of a man in any field of activity.

PROMOTED

Two appointments of considerable interest to Canadian hotel men and to the travelling public in general, have just been announced. H. F. Mathews, general manager of hotels, Western Lines, Canadian Pacific, formerly assistant to Mr. Robertson, is promoted to the management of the Banff Springs Hotel. Both of the promoted men are well known and popular throughout the West and are recognized authorities in the hotel business.

A. H. Denchall

assistant general manager of hotels, Western Lines, with headquarters in Winnipeg, while A. E. Robertson, formerly assistant to Mr. Mathews, is promoted to the management of the Banff Springs Hotel. Both of the promoted men are well known and popular throughout the West and are recognized authorities in the hotel business.

A. E. Robertson

Here and There

The lobster season along the Nova Scotia coasts is now in full swing. It is estimated that at least 400 fishermen are engaged in the industry and that the number of traps will likely reach 200,000 or more.

The dining saloon of the new 42,500-ton Empress of Britain, known as "Salle Jacques Cartier," is the largest unpartitioned room in the five oceans. It was decorated by Frank Brangwyn, R.A.

As a tourist centre Cape Breton moved one of the best seasons in history during 1930. During the year 2459 automobiles were headed across the Strait of Canso compared with 2,057 for the previous year.

anouever will have the honor of welcoming a reigning monarch when King Prajadhipok, of Siam, and his consort, Queen Ramahadarn, arrive there April 17 aboard Canadian Pacific liner Empress of Japan.

One of the largest and most courageous engineering undertakings on the continent is proceeding at the Abitibi canyon, Abitibi River, near Cochrane, Northern Ontario, where a plant is being built to generate 250,000 horse-power at a cost of over \$20,000,000.

"British steel for Canadian produce," is the slogan lettered on massive shafts unloaded at Saint John recently for shipment over Canadian Pacific Railway for use in hydro-electric development plants at Beauharnois, Quebec, and in the valley of the Ottawa River.

France should prove an excellent market for Canadian wheat since she has committed herself to regulated purchases of wheat from Central European countries, said Hon. C. A. Henry, French Minister to Canada, interviewed at the Windsor Station, Montreal, on his way to present credentials at Ottawa.

Relayed to twenty-two stations between Quebec City and Victoria by Canadian Pacific Telegraphs the speech of the Prince of Wales, opening the British Trade Fair in Buenos Aires, was clearly heard across the Dominion. The broadcast was brought to Canada direct from Buenos Aires by the short beam system of the Canadian Marconi Company.

What the Ice Age looked like, millions of years ago, is exactly pictured in the great Columbia ice-field, extending for hundreds of miles in the Rockies, and easily accessible from Lake Louise, said Walter L. Payne, in a recent lecture entitled, "On Horseback to the Glacial Age." The field extends in the form of glaciers to three sides from which mighty rivers run to the Arctic, Pacific and Atlantic oceans.

Champions of the Railway-Phone League and winners of the Beatty Trophy and the Thornton Cup, the Canadian Pacific Railway hockey team, were individually presented with gold watches as a laudatory gift of E. W. Beatty, chairman and president of the system, in honor of their victory, at a banquet at the Place Viger Hotel, Montreal, recently. The team will play Winnipeg at the end of March for the all lines hockey championship of the Railway. (719)

An Interesting Stamp

Newfoundland Commemorates First Trans-Atlantic Air Mail Flight
Newfoundland has issued a postage stamp commemorating the first trans-Atlantic air mail flight, which was accomplished in 1919 by the late Sir John Alcock and Sir Arthur Whitten Brown. The stamp is the fifty cent denomination of the Newfoundland air mail series. The dollar stamp of the series bears a map showing the routes of all the great trans-Atlantic flights. The series was printed in England and is beautifully designed and engraved. The tenth anniversary of the flight was commemorated by Newfoundland with a special postmark.

Everybody's Querer

Call a woman a quacker and she smiles; call her a hen and she howls. Call a young woman a witch and she is pleased; call an old woman a witch and she is indignant. Call a girl a kitten and she likes it; call a woman a cat and she hates you. Women are quers. Call a man a gay dog and you flatter him; call him a pup, a hound, or a cur, and he tries to alter the map of your face. He won't mind being called a bull or a bear, yet he resents being called a calf or cub. Men are quers.

for NEURALGIA
A good application of Minard's, according to directions, just "hits the spot." You'll find that you get wonderful relief!

MINARD'S "KING OF PAIN" LINIMENT

W. N. U. 1582

Ancient Halls Brought To Antiques Exposition

Transported To New York City From Uxbridge, England

The carved oak hall in which commissioners of King Charles I. met commissioners of Oliver Cromwell, back in 1645 at Uxbridge, England, has been transplanted, panel by panel, to the International Antiques Exposition at Grand Central Palace.

The treaty room of the old Treaty House at Uxbridge, its carved oak studded by time, is rivalled by another room at the exhibition. It is from Buckhurst Castle, seat of the Earls of Warr. A pine-paneled room from Gray's Inn, London, England, is also reassembled.

There is furniture from many countries, ranging from medieval oak chests to 100-year-old Eidermeier just coming into vogue. Silver, jewels, and objects of art are included. Marion Powys will show a collection of royal lace, several Russian aristocrats are offering articles through dealers and pottery and plate made at the Imperial factory founded by Catherine The Great, is displayed.

SCHOOLGIRL CHIC

All Tingey models are created and sketched in Paris and the patterns are made in New York.
The most fascinating touches of lingerie, amusing and fantastic trims, collars and cuffs mark the new season's afternoon clothes. Naturally they affect young people's clothes as they do models for groups.

A charming dress for a schoolgirl has been chosen for today, showing a new collar and cuff effect which is as attractive as it is becoming to the average young miss.
Here on a frock of the mid blue broadcloth is a delightful collar and cuff set in soft pink crepe de chine. Buttons and blue edged buttonholes decorated the original, but real buttonholes are not absolutely necessary. Sturdier schemes in, for instance, fine navy chamois with blue and white spotted, or white collar and cuffs would also be exceedingly smart.

This pattern may be obtained in sizes 14 to 20 and 24 to 38. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

PIMPLE

Go Amazing Quick Way
Pimples ended so quick by "Doan's Balm," every body is amazed at doctor's amazing discovery. This shows the magic of Dr. Doan's Balm "from Druggist today."

New Giant Cunard Liner

Interior Decorations To Be Most Elaborate Of Any Vessel Afloat
Continued rapid progress is being made on the new giant Cunard liner of 73,000 tons which is at present under construction in the yards of John Brown & Company, at Clydebank, Scotland.

Details have reached the local offices of the Cunard Line with reference to a number of the plans for the interior decoration of the liner which up to the present is without a name.
Mr. Eric Reford, vice-president of the Robert Reford Company, and general manager of the Cunard Line in Canada, in discussing some of the features which will be part of the new Cunarder, mentioned the fact that she will have an exceedingly beautiful church and that it will be decorated in accordance with the best traditions of English ecclesiastical art.

"The liner itself will have eight decks above the water line," he said, "and between the air and the centre funnels will be built the largest dining room ever to be placed in an ocean liner."

"The boat deck itself will be 70 feet above the water line, and the tops of the funnels, which are forty feet across, about one hundred and thirty feet above. The boat deck is to be about 550 feet long and the promenade deck 620 feet long."

"I understand that the interior decoration of the Cunarder has not been settled, but I am sure that it will be the most elaborate that has ever been known on an ocean liner."
"It is fully expected that the construction of the hull will be well advanced by the spring," said Mr. Reford in closing.

Recipes For This Week

(By Betty Barclay)

DATE MUFFINS

- 2 cups special cake flour, sifted.
- 4 teaspoons baking powder.
- 1½ teaspoon salt.
- 4 tablespoons sugar.
- ½ cup milk.
- 1 egg, well beaten.
- 4 tablespoons butter or other shortening, melted.
- 1 cup dates, seeded and sliced.
- Sift flour, salt, and sugar, and sift again. Combine milk, egg and add to flour, beating until smooth. Add shortening and dates. Bake in greased muffin pans in moderate oven (370 degrees Fahrenheit), 30 minutes. Makes 18 small muffins.

SNOWFLAKE PUDDING

- 2 egg yolks, slightly beaten.
- Dash of salt.
- 1½ cup sugar.
- 2 cups milk, scalded.
- 1 envelope gelatine (1 tablespoon).
- 1 can (1½-2 cups) coconut, southern style.
- 1 teaspoon vanilla.
- 2 egg whites, stiffly beaten.
- 1½ cups fruit (canned grapes, pineapple, berries or any fruit in season).

Combine egg yolk, salt, and sugar. Add a small amount of milk, stirring vigorously. Return to double boiler and cook until slightly thickened, stirring constantly. Pour a small amount of hot mixture over gelatine, stir until dissolved, and add to remainder of mixture. Cool. Fold in ½ cup coconut, flavoring, and egg whites. Pour over fruit. Sprinkle with remaining coconut. Chill until firm. Serves 8.

British Machines For U.S.

A British firm, the Wellman Smith Owen Engineering Corporation, Ltd., of Victoria Station House, S.V., has obtained a contract for the delivery of 1,000 tons of machinery to Pittsburgh, Pennsylvania, the heart of the American steel-producing country. It will mean the employment in England, of 600 men for six months. The contract is for machinery for the production of welded steel tube.

Altitude and Power

As an aeroplane increases its altitude, its motor loses much of its power, experiments conducted by the United States Bureau of Standards show. Tests conducted revealed that at an altitude of 25,000 feet a motor which developed 410 horsepower on the ground only developed 100 horsepower at that height.

SUNDAY SCHOOL LESSON

MARCH 29

REVIEW: JESUS THE WORLD'S SAVIOUR—PREPARATION AND POPULARITY

Golden Text: "Jesus of Nazareth . . . who went about doing good, and healing all that were oppressed of the devil: for God was with Him."—Acts 10:38.

Devotional Reading: Isaiah 35:5-10.

Questions Upon the Quarter's Lesson

For Young People and Adults.

1. How was the world prepared for the coming of Jesus?
2. What traits in the character and preaching of John the Baptist suggest the Old Testament rather than the new?
3. In what respects was John the Baptist a great man? What was his message?
4. What is the lesson for parents in the account of Jesus' first visit to Jerusalem?
5. At the beginning of His ministry, what conflicting ideas did Jesus teach?
6. What are some of the standards set by Jesus in His Sermon on the Mount?
7. Can one live by the Golden Rule?
8. How did Jesus express the evil of punctiliousness without principle?
9. What is meant by "the stewardship of life," and how did Jesus teach the lesson?
10. What questions has Jesus answered, and how do His answers show His wisdom?

For Intermediates and Seniors.

1. Where is Palestine?
2. Locate the place where Jesus was born, the place where He lived until His baptism, and the place which was His headquarters during His public ministry.
3. How did the Boy Jesus treat His parents?
4. What were Jesus' first recorded words, and what was the occasion for them?
5. What was the message of John the Baptist?
6. In what way was Jesus tempted in the wilderness?
7. What is the Golden Rule?
8. What is a parable?
9. By what parable did Jesus teach the lesson of taking heed how one hears?
10. How did He teach the lesson that we must share with those in need?

A Review Of Important Words
Complete each of the following, and tell the occasion for its utterance.

Fourth Best Customer

Canada was Great Britain's fourth best customer in 1930, having advanced one place from the previous year, it was announced by the Department of Trade and Commerce after a report had been received from the British Board of Trade.

Canadian Geographical Society

Dr. Charles Cammell, deputy minister of mines, was re-elected president of the Canadian Geographical Society at the recent annual meeting, the first and second vice-presidents being, respectively, C. G. Gowan and Dr. J. Macintosh Bell.

Geologists have found that Cape Cod, Massachusetts, is sandy to a depth of 300 feet in some places.

No Cars For Voters

Ban Placed On Use Of Cars To Take Voters To Poll In Manitoba Provincial Elections

Voters in Manitoba provincial elections will no longer journey to the polls in automobiles unless they are sick or infirm. The law amendments committee of the legislature decided to ban the use of cars to convey voters to polling stations.

Any voter, however, journeying to the polls in his own auto, can give a lift to a fellow voter en route to cast his ballot.

New Baggage Device

A device by which baggage may be unloaded and taken on a 'plane in flight has been developed. Dropping a load into a chute, the plane's trail line is hooked onto the baggage which is automatically shot forward at the speed the 'plane is travelling.

The Value Of Advertising

Three General Types Outlined By President Of Montreal Club

It is no longer enough to make a better mouse-trap, one must also advertise it, W. G. McGruther, president of the Montreal Advertising Club, stated in outlining the change that has come about in trade and industry in the present century, especially in regard to advertising, to students of the school of commerce McGill University, at a luncheon meeting. Three general types of advertising were outlined. The first was designed to bring customers to a store for a particular product, such as a specific brand of cigarettes; the second to lower the buyer's resistance when the merchant offered merchandise bearing an established trade name, and the third, institutional advertising which is automatically shot forward at the speed the 'plane is travelling.

PAIN
after eating

What many call "indigestion" is very often nothing but excess acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes acid instantly. The best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard anti-acid with physicians in the 50 years since its invention. One spoonful of this harmless, tasteless alkali will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this more pleasant way. A small bottle is sufficient to show its merit. Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for more than 50 years in correcting excess acid. 50c a bottle; any drugstore. Complete directions for its many uses are enclosed with every bottle. The Genuine Milk of Magnesia is always a liquid—never a tablet. Look for the Phillips' name on bottle. (Made in Canada)

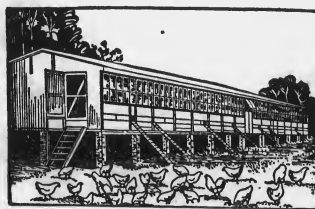

Make Your Windows Pay

Here and There

718 Commercial fruit production in Canada in 1930 had a value of \$10,224,970. Apples accounted for \$10,863,940 of that total.

For the year ended May 31, 1930, a total of \$2,837,678 was spent in Canada for cut blooms showing that Canadians still have a strong penchant for saying it with flowers.

As a barometer of business conditions in Nova Scotia it may be stated that in 1930 there were 129 new companies incorporated as compared with 118 for the previous year.

A consignment of 120,000 pounds of dried lake from Digby has been shipped by way of Yarmouth to Rio de Janeiro, Brazil, and Nova Scotia exporters believe this may be the beginning of a steady trade in this line.

Over fifty per cent. of the raw leaf tobacco used in the Canadian tobacco industry is now produced in Canada. Less than two per cent. of the tobacco consumed in the Dominion is imported in manufactured form.

At end of February 7,621,980 bushels of wheat had entered Saint John over Canadian Pacific lines as compared with a movement of 3,659,677 bushels during the similar period of 1930.

Two Chinese babies hold the distinction of being the first infants born aboard Canadian Pacific liner Empress of Japan. The births occurred on a recent voyage and were reported on arrival of the ship at Vancouver.

Public rooms on the Empress of Britain which will arrive at Quebec on its maiden voyage June 2, all bear distinctive names. The dining saloon will be known as "Salle Jacques Cartier," the hall room as the "Empress Room," and the lounge as "Mayfair."

Total estimated revenues of the province of New Brunswick for 1931 is set at \$4,392,321 according to the financial estimates presented in the provincial legislature recently by the provincial secretary-treasurer in his sixth budget speech.

When H. R. H. the Prince of Wales opens the British Trade Fair at Buenos Aires, March 14, his address will be broadcast throughout Canada by the combined efforts of the Canadian Pacific and Canadian Marconi companies. The broadcast will start about one p.m. Eastern Standard Time and will last between 20 and 30 minutes.

Inauguration of air service between Saint John and Halifax occurred recently when a Fairchild plane of the Canadian Airways left the New Brunswick city with passengers and express for the Nova Scotia metropolis. The trip of 125 miles was made in an hour and a half.

"In most parts of western Canada if you ask a business man as to general conditions in his locality, the answer you receive is a surprising number of instances is that they are better than people in the east seem to think and that signs of improvement are by no means wanting," was the summary of impressions of life as he concluded western tour by E. W. Beatty, chairman and president of the Canadian Pacific Railway.
